# THE ACCUTOME EXPERIENCE

## **Dear Eye Care Professional:**

The entire Accutome team would like to extend our appreciation for all of your support throughout the years. As we embark on our fourth decade in the industry, the three major traits that keep the Accutome brand growing remain the same: Superior Customer Service, Quality and Innovation. It is our goal to make every experience you have with us a special and productive one.

Our focus is to continue to improve our product line and customer service to better suit your needs. This year, we have added more customer service representatives and sales representatives to provide worldwide support. We are also excited to announce the opening of our European office in the Netherlands.

We have become a great resource for all of your surgical and diagnostic needs. This surgical catalog is a useful tool to improve your Accutome experience. We carry thousands of products. If you do not see a product, give our representatives a call and we will find it for you.

We look forward to continuing to supply your office and surgery center with the finest products and superior customer service.

Sincerely,

**The Accutome Team**

# DIAMOND KNIVES

## PHACO INCISION DIAMOND KNIVES

Angled holder unless specified.

### Simplicity

The Simplicity Series is the perfect blend of design and craftsmanship helping make superior corneal incisions. The blade features a unique top and bottom bevel design which create a self-sealing incision with a single pass. This linear incision is created without having to applanate or "dimple down".
