3-D Facet Design, Front View

Our Patented* 3-D Responsible Blades Offer Unsurpassed Incision Architecture. Asymmetrically Converging Bevels Force Tissue In Three Opposing Directions Within The Tunnel, Resulting In A More Torturous Path For Fluid Egression. Used By Top Surgeons Around The World, Our 3-D Blades Provide The Most Pristine, Water-Tight, And Technically Advanced Incisions On The Planet. The Results Will Astound You.
